DETAILED ACTION

Allowable Subject Matter

1. Claims 1-30 allowed.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is "Mirror, Mirror on the Web: A Study of Host Pairs with Replicated Content" to Bharat et al.

Bharat et al. discuss web site mirroring technology. Website mirroring replicates exact copies of websites over multiple servers in order to decrease server load, increase file download and ensure better web site availability. Further, when sites are replicated, they are accessible from a common uniform resource locator. Bharat et al. taken either individually or in combination with other prior art of record fails to teach or suggest configuring behaviors of the Sub Sites to match desired population segment as recited in independent claims 1, 12, and 23.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- "Multiple Vision Duplicate 'mirrored' Web sites could help ease demand for network resources" to Bucholtz discusses web site mirroring technology.

Art Unit: 3621

- International Publication Number WO 98/14896 to Traugher discusses pre-defined templates.
- Publication No. 2003/0145007 to Kenner et al. disclose smart mirror sites, which maintains a copy of certain data managed by the system.
